BEARS PROFESS APPREHEN-SION OVER THE SITUATION.

New York, Feb. 6.—The undertone in the general list of stocks continued detailed and the effect was offset Allantic C. J. 100 28 28 Anac. Mining Co. 400 45¼ 445¼ Atchison 2,900 293% 39¼ do pfd. 300 101% 101% pressed today and the effect was offset Atlantic C. L. less effectually by special points of B. & O. strength among the lew priced stocks. Reaction made itself felt in the lesser class of stocks. The tone of the money mar-

of stocks. The tone of the money markets and the expectation of a bank statement showing a clear decrease in the margin of the surplus were advanced as ostensible reasons for some of the selling of stocks.

The bank statement did not appear until after the market closed and it was said hy bankers that the slight advance in money rates was having the effect of bringing increased supplies from outside sources. As the withdrawal of cash by the trust companies, while locking up additional cash for reserve purposes, has the effect of effectively strengthening the banking position in the event of future demands on deposits, the new situation is accepted with great satisfaction by the substantial element of the financial center. The bearish traders on the stock exchange professed some apprehension over the Japanese question and the cial center. The bearish traders on the stock exchange professed some apprehension over the Japanese question and the desire to await the final action of the California legislature on the bill to segregate Japanese pupils in the public schools was cited as an influence in the day's market.

Japanese government bonds in foreign markets continued to advance on account of the Japanese program, but the advance was followed today in the New York market.

The percentage of actual reserve of the clearing house banks stoday was 25.77.

The statement of banks and trust companies of Greater New York, not reporting to the clearing house, shows that these institutions have aggregate deposits of \$1.221,424,600; total rash on hand, \$156,792,-906, and loans amounting to \$1.084,600,600,

The Financier will say:

The Financier will say:
The heavy changes noted in the statement of the associated banks of New York City for the week ending Feb. 6, were traceable directly to operations with the trust companies of this city. The clearing house banks showed on a basis of actual conditions a decrease of \$16,275,700 in loans, a decrease of \$19,225,200 in specie and legals, and a contraction of \$33,657,900 in deposits.

The heavy loss in cash was somewhat offset by the decreased reserve requirements growing out of the shrinkage in deposits, but as it was, the bank reserves of the week fell \$10,510,750, the surplus reserve on Saturday standing at \$9,509,300, the lowest reported for over a year. The shrinkage in cash, aside from the causes already noted, was traceable

GRAIN AND PROVISIONS.

Chicago. Feb. 6.—The wheat market was benefited by support from several of the leading bulls which held prices all day above the final quotations of the previous session. A number of the smaller holders were inclined to take profits during the greater part of the day, but offerings from this source were greatly reduced during the final hour which allowed prices to move upward on a more general demand. The market closed strong with May at \$1.104/201.103/2 and July 987/2030.

Increased offerings of corn from Iowa. Plinois and Nebraska had a depressing affect on the market for that grain. The late bulge in wheat, however, had a strengthening influence and caused the market to close steady with prices a shade higher to 1/4c lower. May closed at 637/40 687/4c and July at 867/4c.

Trade in oats was exceptionally light. At the close prices were unchanged to 1/4c lower with May at 517/4c and July at 1/4c.

At the close prices were unchanged to the lower with May at 51%c and July at Provisions were weak. At the close prices were The to loc lower than the pre-
